EXPERIENCE

Joy Innovations Pvt — Web Developer Intern

May 2025 – June 2025

- Designed and developed a responsive website Landing Page for a home interior shop, improving user experience and product showcasing.
- Created modern UI layouts and buttons using HTML and CSS, JavaScript ensuring compatibility across devices (mobile, tablet, desktop). Integrated features like product gallery, contact form, and navigation menus.

SKILLS

FrontEnd Technologies : HTML, CSS, Bootstrap, JavaScript, React JS

BackEnd Technologies : Node JS, Express JS, Mongo DB, Python(basic)

UI design : Figma, Photoshop **Tools** : Git, GitHub, VScode

PROJECTS

Bubble Tea Animated Landing Page | HTML, CSS, Animations | Click/Double tap → [Website](#) *June 2026*

- Designed and developed a visually engaging, responsive landing page for a bubble tea brand.
- Implemented interactive animations, hover effects and smooth transitions to enhance user engagement.
- Applied CSS animations, responsive design, visual hierarchy and UI/UX principles across different screen sizes.

BookMyShow Clone | HTML, CSS, JavaScript | Click/DoubleTap → [Website](#) *July 2026*

- Developed a responsive movie booking interface inspired by BookMyShow. Applied CSS Flexbox/Grid, responsive design and UI/UX principles to create a user-friendly interface.
- Built movie listings, theatre listings, show timings and date-selection UI using HTML, CSS and JavaScript.
- Implemented interactive UI components, navigation and responsive layouts for desktop and mobile screens.

AI-Powered Deepfake Video Detection System (college project) *May 2025*

- Developed an AI-based deepfake video detection system using TensorFlow and OpenCV for video frame extraction, facial analysis, and fake/real classification.
- Built a Flask-based backend to process uploaded videos and integrate the detection workflow with the application.
- Integrated Twilio WhatsApp API to send real-time alerts to administrators when potentially fake content was detected.
